## Under-Display Camera Technology for Smartphones

By John Davis — [Leave a Comment \(Edit\)](#)

Under-Display Camera Technology: Under-screen camera technology is a new technology that allows smartphones to have a camera without a physical lens. This technology is used in smartphones like Xiaomi's Mi 11 Ultra, which has a 108MP camera. This technology is also used in mobile phones for daily life.

## An Ethical, Slow and Sustainable Fashion Is Possible

By [Allison Foster](#) — [Leave a Comment \(Edit\)](#)

Sustainable Fashion Is Possible: Following the Rana Plaza tragedy in Bangladesh on April 24, 2013, 1,100 textile workers died and more than 2,200 were injured. After this accident, which led to the questioning of the increasingly aggressive speed of the fashion industry, consumers began to ask the following questions: "Who produces the clothes I wear [...]"
